Do You Receive Social Security Disability Benefits?

Are you:

- Testing your ability to work but need to continue receiving SSDI or SSI benefits?
- Working towards financial independence?
- Starting a business or continuing your education?

Good news!

Social Security’s Work Incentives and Ticket to Work Program can make it possible to test your ability to work and still receive monthly disability payments and extended healthcare coverage.

Ticket to Work Helpline

- Get general information about the Ticket to Work and SSA Work Incentives.
- Find information about CWICs, Employment Networks (ENs) and other employment-related assistance available in your area.

Community Work Incentives Coordinators (CWIC)

CWICs explain Social Security work incentives and help you apply them while developing a plan to either return to or continue working.

Social Security Administration Rules

These rules are called “work incentives.” Work incentives are rules that protect benefits while making an effort to work.

The Social Security Administration provides 95% of the resources for this project and HCIL, Inc. provides the remaining 5%. This document is funded through a Social Security cooperative agreement. Although Social Security reviewed this document for accuracy, it does not constitute an official Social Security communication.

Work Incentives Planning & Assistance Program

What can you expect?

- Advice on working and earning potential while receiving SSDI and/or SSI.
- An explanation of federal, state and local work incentives and benefits, and assistance with identifying when work causes a change in your SSDI and/or SSI benefits.
- Information about how the Texas Vocational Rehabilitation Program and other Employment Networks can support your efforts to secure and retain work.
- Opportunities to explore employment options and long-term supports.
- Information about other resources that can assist you.
